**CMR Technical Campus**, *Bachelor of Technology in Information Technology* | Hyderabad                    May 2021

## EXPERIENCE

Full Stack Developer @ **Tata Consultancy Services** | Hyderabad                    Oct 2021 - Present

## Certificates

Newton School:- **Full Stack Web Development**

## PROJECTS

### Full Stack Developer, BFSI project
Responsibilities:-

- Working on developing new features and enhancing existing functionalities in chatbot
- Dealing with vulnerabilities like code and secure vulnerabilities
- Working on automation suite by making it up to date for every production release and adding new test suite for every new feature.
- Working on mapping the benefits with utterances using service codes and its intent names.
- Actively engaged in resolving Sonar issues to enhance code quality and maintainability.
- Developed comprehensive unit test cases to ensure robustness and reliability of project functionalities.

### JavaScript Developer, BFSI project
Responsibilities:-

- Worked on Tasktop Integration Hub. Designed mappings and their flow as per the requirements.
- Designed and implemented JavaScript automation scripts from scratch, executed within Postman, seamlessly automate AgilePlace card activites via REST API's, significantly enhancing efficiency and productivity in project workflows.
- Developed JavaScript code for Tasktop extensions to facilitate out of the box mapping functionality.
- In Tasktop, I was responsible for mapping Jira and AgilePlace applications.
- Developed JavaScript code from scratch to interact with Jira Rest APIs and automate user filters.
- Successfully developed JavaScript automation scripts to streamline manual testing processes, enabling efficient and accurate testing procedure entirely driven by automation.

## SKILLS

| | |
|---|---|
| Languages | JavaScript, Java, Data Structures, HTML, CSS, C |
| Software Packages | ReactJS, NodeJS, ExpressJS |
| Data Base | MongoDB |
| Software Tools | Jenkins,Tasktop, Jira, Postman, Planview Portfolio, Planview AgilePlace,GIT. |

## Achievements

- Implemented a new feature to streamline manual processes by utilizing REST APIs and scripting in JavaScript within Postman, resulting in the automation card activities. This achievement was recognized with the publication of the feature in TCS smart Retro.
- Cracked TCS Digital Cadre.
